

DEPARTMENT OF PHILOSOPHY

PHILOSOPHY – BACHELOR’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Philosophy

Study Field: Philosophy

Type of Study: Bachelor

Form of Study: Full time

Standard Length of Study: 4 years / 8 semesters

Number of ECTS credits allocated: 240 ECTS credits

Qualification Awarded: Bachelor of Philosophy (B.A.)

Admission Requirements: An entrance condition for enrollment in a Bachelor’s study program is to have graduated full high school, approved entrance examination scores, and acceptance to study program. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Master study program

Final Examination / ECTS: State final examination / 14 ECTS credits

ECTS Departmental Coordinator:

Name: Miljana Milojević, Assistant Professor

Email: mrmiloje@f.bg.ac.rs

Phone: 381 11 3206-182

Products of Studying: A graduate student with a Bachelor’s degree in Philosophy will have gained fundamental and necessary knowledge in following areas of study: History of Philosophy, Logics, Epistemology, Philosophy of Science, Methodology, Ethics, and Aesthetics. The familiarity with the history of various philosophical ideas and opinions is an essential pre-requisite for further understanding of modern philosophical matters. A great amount of information gained from studying Logics, Epistemology, Philosophy of Science and Methodology are of great assessment for emerging and increasing critical thinking and talent of debating. The focus of the third section of the curriculum is on philosophical disciplines such as Ethics, Aesthetics, Philosophy of Politics and Law that explore matters or moral values and rational thinking, and facilitate successful management of daily practical and professional activities. Due to the gained knowledge, the graduate student with a Bachelor’s degree in Philosophy will be prepared to perform numerous and various complex professional tasks as well as be qualified and trained to conduct lectures and research projects.

Educational and Professional Goals: The main focus of the Bachelor’s degree study program is oriented towards gaining knowledge and developing capabilities and skills essential for a work of a Bachelor of Philosophy at any professional level, as well as for continuing education and further specialization.

The main goals of the Bachelor's degree study program in Philosophy are the following:

- Achieving fundamental knowledge in History of Philosophy, Logics, Methodology, Epistemology, Ethics and Aesthetics
- Introducing basic philosophical terms, issues, methods, theory and traditions
- Developing competence to self-create and self-conduct the analysis of philosophical arguments and matters
- Emerging capabilities of relating philosophical contexts to individual and social problems
- Introducing current tendencies and trends in reference to modern philosophical issues
- Acquiring academic and professional skills of students applicable in studying, professional work and continuing education.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. One study course corresponds to 4 – 14 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

PHILOSOPHY – MASTER'S DEGREE

Faculty: Faculty of Philosophy

Study Program: Philosophy

Study Field: Philosophy

Type of Study: Master

Form of Study: Full time

Standard Length of Study: 1 year / 2 semesters

Number of ECTS credits allocated: 60 ECTS credits

Qualification Awarded: Master of Philosophy (M.A.)

Admission Requirements: An entrance condition for enrollment in a follow-up Master's study program is the completion of study in a Bachelor's study program (240 ECTS credits). Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Master's study program with a Bachelor's degree from a different study group will have to take the difference exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Doctoral study program

Final Examination / ECTS: State final examination / 30 ECTS credits

ECTS Departmental Coordinator:

Name: Miljana Milojević, Assistant Professor

Email: mrmiloje@f.bg.ac.rs

Phone: 381 11 3206-182

Educational and Professional Goals: A postgraduate student with a Master's degree in Philosophy will get extensive education about primary philosophical study areas. The spectrum of knowledge in a discipline such as History of Philosophy offers education of the most excellent quality, while detailed understanding of disciplines such as Logics, Epistemology, Philosophy of Science and Methodology enables a postgraduate student to easily and precisely function in different humanistic and philosophical areas. At the same time, relative theories of human worth and value in disciplines such as Ethics, Aesthetics, Philosophy of Politics and Law, Philosophy of Culture, Philosophy of Religion, etc. are created and designed to enable a student to access the standard of quality life concerning issues of moral principles and orientations.

A Master's Degree in Philosophy signifies that a graduate student will be in a great condition for good management of many complex branches of culture, education, publishing, administration, etc.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. One study course corresponds to 10 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program. A student is obligated to attempt and accumulate 30 ECTS credits in order to pass.

PHILOSOPHY – DOCTORAL DEGREE

Faculty: Faculty of Philosophy

Study Program: Philosophy

Study Field: Philosophy

Type of Study: Doctoral

Form of Study: Full time

Standard Length of Study: 3 years / 6 semesters

Number of ECTS credits allocated: 180 ECTS credits

Qualification Awarded: Doctor of Philosophy (Ph.D.)

Access to Further Studies: The doctoral degree is the highest level of Serbian education system.

Final Examination / ECTS: State final examination – Doctoral Dissertation / 60 ECTS credits

Admission Requirements: An entrance conditions for enrollment in a follow-up Doctoral study program are the completion of study in a Master's study program (300 ECTS credits), the average grade of 8.00 during Bachelor and Master's study programs, or at least five published research studies in magazines of national and international recognition. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Doctoral study program with a Master's degree from a different study group will have to take the differential exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: The doctoral degree is the highest level of Serbian education system.

Final Examination / ECTS: State final examination – Doctoral Dissertation / 60 ECTS credits

ECTS Departmental Coordinator:

Name: Miljana Milojević, Assistant Professor

Email: mrmiloje@f.bg.ac.rs

Phone: 381 11 3206-182

Educational and Professional Goals: A graduate student with a Doctoral degree in Philosophy and accomplished Doctoral Dissertation will be equipped with wide-ranging knowledge in various philosophical areas. A Doctoral Degree in Philosophy signifies that a graduate student will be in a great condition for good management of many complex branches of culture, education, publishing, administration, scientific and research institutes, etc.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. One study course corresponds to 10 ECTS credits or 20 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program. Two elective courses (within first, second and third semester) correspond to 20 ECTS credits, while two elective courses realized in first and second semester correspond to 10 ECTS credits. The research study thesis corresponds to 40 ECTS credits.

DEPARTMENT OF SOCIOLOGY

SOCIOLOGY – BACHELOR’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Sociology

Study Field: Sociology

Type of Study: Bachelor

Form of Study: Full time

Standard Length of Study: 4 years / 8 semesters

Number of ECTS credits allocated: 240 ECTS credits

Qualification Awarded: Bachelor of Sociology (B.A.)

Admission Requirements: An entrance condition for enrollment in a Bachelor’s study program is to have graduated full high school, approved entrance examination scores, and acceptance to study program. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Master study program

Final Examination / ECTS: State final examination / 8 ECTS credits

ECTS Departmental Coordinator:

Name: Jovo Bakić, Assistant Professor

Email: jbakic@f.bg.ac.rs

Phone: 381 11 3206-194

Educational and Professional Goals: Undergraduate study program within the Department of Sociology is a four-year long study program, and the student who graduated from it will not only be equipped with knowledge about fundamental sociological terms and terms concerning related disciplines, but also introduced to major humanistic theories about society the graduated student will become aware of various social actors and changes as well as of ways in which society functions. The Bachelor study program’s main goal is to make a student capable of recognizing and discussing most important social issues and phenomena, classifying the same and comparing them to related topics and matters. Also, the student with a Bachelor’s degree in Sociology will acquire special professional skills pertaining to basic collecting methods and procedures, information systematization, and data analysis, and all due to the practical laboratory work organized by the Department of Sociology within the study group. The Bachelor’s study program in Sociology prepares one to perform numerous and various complex professional tasks as well as be qualified and trained to conduct lectures and research projects.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Depending on the variation of lectures and laboratory works within the study course, each corresponds to 3 – 8

ECTS credits, while complete unit corresponds to 16 ETC credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

Students, who upon graduation from the Bachelor's study program in Sociology intend to work in elementary and high school education, are required to take Methodology courses.

SOCIOLOGY – MASTER’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Sociology

Study Field: Sociology

Type of Study: Master

Form of Study: Full time

Standard Length of Study: 1 year / 2 semesters

Number of ECTS credits allocated: 60 ECTS credits

Qualification Awarded: Master of Sociology (M.A.)

Admission Requirements: An entrance condition for enrollment in a follow-up Master’s study program is the completion of study in a Bachelor’s study program (240 ECTS credits). Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Master’s study program with a Bachelor’s degree from a different study group will have to take the difference exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Doctoral study program

Final Examination / ECTS: State final examination / 20 ECTS credits; Final research study / 10 ECTS credits

ECTS Departmental Coordinator: Name: Jovo Bakić, Assistant Professor

Email: jbakic@f.bg.ac.rs

Phone: 381 11 3206-194

Products of Studying: Master’s study program in Sociology is a one year study program offered by the Department of Sociology, and upon the graduation from it, the graduate student will become equipped with knowledge and skills indispensable for any individual research work in the field of Sociology. The study program enables student to gain theoretical and methodical knowledge in not only Sociology but in various social and topic related disciplines, as well as through research projects and final thesis analysis. Once obtained credentials and knowledge will qualify graduate students to work on research projects within professional institutions. Graduate students from a Master’s study program in Sociology will become well trained for critical thinking activities, a range of research activities and conception of possible adjustments, transformations and solutions in specific social matters.

Educational and Professional Goals: The main goal of a Master’s study program in Sociology is to offer theoretical and methodological knowledge that will enable a graduate student to engage in individual and critical work in one or the other areas in Sociology. The curriculum of socio-scientific related subjects is created and designed with the intention to realize and facilitate the relationship of certain sociological disciplines with other disciplines and areas of study, as well as to introduce a student with variety of specifics of research methods and topics within research

projects. Another goal of a Master's study program is to introduce a graduate student with possibilities of practical application of the knowledge in Sociology.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. One study course corresponds to 10 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program. A student is obligated to attempt and accumulate 30 ECTS credits in order to pass.

SOCIOLOGY - DOCTORAL DEGREE

Faculty: Faculty of Philosophy

Study Program: Sociology

Study Field: Sociology

Type of Study: Doctoral

Form of Study: Full time

Standard Length of Study: 3 years / 6 semesters

Number of ECTS credits allocated: 180 ECTS credits

Qualification Awarded: Doctor of Sociology (Ph. D.)

Admission Requirements: An entrance conditions for enrollment in a follow-up Doctoral study program are the completion of study in a Master's study program (300 ECTS credits), the average grade of 8.00 during Bachelor and Master's study programs, or at least five published research studies in magazines of national and international recognition. The knowledge of at least one foreign language is mandatory as well. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Doctoral study program with a Master's degree from a different study group will have to take the differential exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: The doctoral degree is the highest level of Serbian education system.

Final Examination / ECTS: State final examination – Doctoral Dissertation / 120 ECTS credits

ECTS Departmental Coordinator: Name: Jovo Bakić, Assistant Professor

Email: jbakic@f.bg.ac.rs

Phone: 381 11 3206-194

Educational and Professional Goals: A Doctoral study program offered by the Department of Sociology trains graduate candidates to become capable of conducting individual research and scientific work in areas of social studies. The main focus of the study program is to enable a graduate student with the understanding of the latest social theories as well as the most recent scientific methodology concerning Epistemology and data collecting and analysis as well. The Doctoral study program also facilitates further interdisciplinary orientation of a candidate.

The concept of the Doctoral study program in Sociology has been created and designed with the intention to, once the educational process has ended, advance the development student's abilities to individually, systematically and critically understand and explore various theoretical, historical and empirical issues concerning social studies. In order to achieve this goal, the student will be trained to diagnose and differentiate hypothetical from practical and existent social matters, to position theoretical or empirical study program to research those same matters, to become skilled at adequate research methods and techniques as well as at data basis research methods, to discover to creatively interpret the results of the study, and to come across the ways of applying them to concrete matters.

During the Doctoral study program, the graduate students will gain fundamental education in the area of Sociology as well as the essential understanding of major social and sociological issues. The students will also be introduced to sociological research methods and techniques, as well as to modern data research techniques. The special attention will be given on preparing students to, after the graduation, continue following modern sociological trends so they can access and maintain connections with international scientific society. Due to that, students will be capable of professional assisting in international research projects, and to present their works and achievements in books and magazines, and at conventions and public presentations. This will be one of the ways of enabling a graduate student to individually provide for the growth of Sociology as a science.

The special concept within Sociology as a science is a concept of Sociology being self reflexive science that reflects society. Therefore, with forming the conscious about the sociological research having to completely respect the principles of ethics, the Doctoral study program in Sociology develops the awareness in a graduate student of becoming responsible for the growth of the society and humanity.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each study course corresponds to 10 ECTS credits, the thesis analysis bibliography corresponds to 15 ECTS credits, the research study corresponds to 45 ECTS credits, and final thesis analysis corresponds to 45 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

DEPARTMENT OF PSYCHOLOGY

PSYCHOLOGY – BACHELOR’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Psychology

Study Field: Psychology

Type of Study: Bachelor

Form of Study: Full time

Standard Length of Study: 4 years / 8 semesters

Number of ECTS credits allocated: 240 ECTS credits

Qualification Awarded: Bachelor of Psychology (B.A.)

Admission Requirements: An entrance condition for enrollment in a Bachelor’s study program is to have graduated full high school, approved entrance examination scores, and acceptance to study program. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Master study program

Final Examination / ECTS: No final state examination required

ECTS Departmental Coordinator:

Name: Ana Altaras, Associate Professor

Email: aaltaras@f.bg.ac.rs

Phone: 381 11 3206-154

Process of Studying: A student with achieved Bachelor’s degree in Psychology will be equipped with the knowledge and understanding of psychological phenomena, facts and laws; will be skilled at using research methods and techniques; will be perceptive of psychological occurrences and their biological, contextual, social and personal characteristics and conditions; will acquire outstanding ability to communicate; and will be qualified to teach Psychology in high schools.

Educational and Professional Goals: A Bachelor’s study program in Psychology is oriented towards acquiring knowledge and skills in the area of Psychology, obtaining abilities for fulfilling minor professional responsibilities as well as towards continuing education.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. First three years of studying (6 semesters) correspond to 180 ECTS credits, while modules correspond to 60 ECTS credits, and each unit corresponds to 6 – 18 ECTS credits. The practical section of the adequate course corresponds to 4 – 6 ECTS credits, and it is conducted in the eighth semester. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

PSYCHOLOGY – MASTER’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Psychology

Study Field: Psychology

Type of Study: Master

Form of Study: Full time

Standard Length of Study: 1 year / 2 semesters

Number of ECTS credits allocated: 60 ECTS credits

Qualification Awarded: Master of Psychology (M.A.)

Admission Requirements: An entrance condition for enrollment in a follow-up Master’s study program is the completion of study in a Bachelor’s study program (240 ECTS credits). Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Master’s study program with a Bachelor’s degree from a different study group will have to take the difference exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Doctoral study program

Final Examination / ECTS: Final state examination / 20 ECTS credits

ECTS Departmental Coordinator:

Name: Ana Altaras, Associate Professor

Email: aaltaras@f.bg.ac.rs

Phone: 381 11 3206-154

Process of Studying: A graduate student with a Master’s degree in Psychology will be equipped with knowledge and understanding of contemporary psychological ideas, theories and concepts; will be trained to evaluate, define, explore and intervene from the psychological point of view; will acquire outstanding communication skills in both presenting the issues and conducting lectures; will have developed both personal and professional ambitions, skills and opinions, which are essential for a graduate student to be in a great condition for using acquired psychological skills for good management of many complex branches of culture, education, public health, administration, scientific and research institutes, etc.

Educational and Professional Goals: A Master’s study program in Psychology is oriented towards developing general and specific theoretical and methodological knowledge and skills in the area of fundamental and applied Psychology essential for performing individual professional responsibilities as well as for conducting various research works.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. In the first semester, within the research module, compulsory courses correspond to 30 ECTS credits, while within the clinical module and at the Psychology of Work, compulsory courses correspond to 8 ECTS credits, elective courses to 18 ECTS credits, and the practical section of the course study

corresponds to 4 ECTS credits. In the same semester, within the educational module, compulsory courses correspond to 6 ECTS credits, elective courses to 8 ECTS credits, and the practical section of the course study corresponds to 6 ECTS credits. In the second semester, each research study within any of the modules corresponds to 10 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

PSYCHOLOGY – DOCTORAL DEGREE

Faculty: Faculty of Philosophy

Study Program: Psychology

Study Field: Psychology

Type of Study: Doctoral

Form of Study: Full time

Standard Length of Study: 3 years / 6 semesters

Number of ECTS credits allocated: 180 ECTS credits

Qualification Awarded: Doctor of Psychology (Ph.D.)

Admission Requirements: An entrance conditions for enrollment in a follow-up Doctoral study program are the completion of study in a Master's study program (300 ECTS credits), the average grade of 8.00 during Bachelor and Master's study programs, or at least five published research studies in magazines of national and international recognition. The knowledge of at least one foreign language is mandatory as well. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Doctoral study program with a Master's degree from a different study group will have to take the differential exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: The doctoral degree is the highest level of Serbian education system.

Final Examination / ECTS: State final examination – Doctoral Dissertation / 120 ECTS credits

ECTS Departmental Coordinator:

Name: Ana Altaras, Associate Professor

Email: aaltaras@f.bg.ac.rs

Phone: 381 11 3206-154

Educational and Professional Goals: The main goal of the Doctoral study program in Psychology is to enable graduate students for a professional and research work at the highest level, including individual creating and conducting research projects as well as educational study courses.

A graduate student with a Doctoral degree in Psychology will be qualified to perform the following:

- To individually resolve and explain practical and theoretical problems concerning general psychological matters
- To think critically, creatively and independently
- To individually create and conduct domestic and international research projects
- To present the research projects' results at the domestic and international conventions and in scientific magazines in both written and oral form
- To create, organize and incorporate diverse psychological contents in lectures
- To understand and practice the principles of working ethics and act in accordance with rules of Law
- To integrate different psychological ideas and perspectives
- To create original and innovative psychological models and methodological practices in Psychology
- To evaluate existing and create inventive standards for practicing Psychology

- To evaluate existing and create innovative educational programs in accordance with the development of Psychology as a science and professional work

Upon the graduation from the Doctoral study program in Psychology, the graduate student will be expected to have acquired high level of academic and research expertise necessary for conducting theoretical, research and professional work in Psychology, and for staying updated on modern and worldwide psychological trends. The goal is to develop educated professionals and leaders that will support the development of Psychology through theoretical and research work, and who will be trained and qualified for conducting and performing edifying instructions concerning various psychological matters at the institutions of higher education.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each elective study course corresponds to 10 ECTS credits, while the research study work corresponds to 45 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

DEPARTMENT OF PEDAGOGY

PEDAGOGY – BACHELOR'S DEGREE

Faculty: Faculty of Philosophy

Study Program: Pedagogy

Study Field: Pedagogy

Type of Study: Bachelor

Form of Study: Full time

Standard Length of Study: 4 years / 8 semesters

Number of ECTS credits allocated: 240 ECTS credits

Qualification Awarded: Bachelor of Pedagogy (B.A.)

Admission Requirements: An entrance condition for enrollment in a Bachelor's study program is to have graduated full high school, approved entrance examination scores, and acceptance to study program. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Master study program

Final Examination / ECTS: No final state examination required

ECTS Departmental Coordinator

Name: Vera Spasenović, Associate Professor

Email: vspaseno@f.bg.ac.rs

Phone: 381 11 3206-164

Process of Studying: A student that graduates with a Bachelor degree in Pedagogy will accomplish and perform the following:

- Will acquire knowledge about facts and terms concerning Pedagogy, as well as obtain understanding of principles and rules of educational systems and programs
- Will comprehend pedagogic ideas, theories and concepts, as well as the basis and specifics of educational process
- Will recognize to apply acquired knowledge in professional pedagogic work

Educational and Professional Goals: A Bachelor's study program in Pedagogy is oriented towards acquiring knowledge and skills in the area of Pedagogy, obtaining abilities necessary for satisfying professional responsibilities within educational systems and programs as well as towards continuing education.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. The study courses correspond to 3 – 14 ECTS credits, while the elective section of the study program

corresponds to 48 ECTS credits, which is 20% of the entire study program. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

PEDAGOGY – MASTER’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Pedagogy

Study Field: Pedagogy

Type of Study: Master

Form of Study: Full time

Standard Length of Study: 1 year / 2 semesters

Number of ECTS credits allocated: 60 ECTS credits

Qualification Awarded: Master of Pedagogy (M.A.)

Admission Requirements: An entrance condition for enrollment in a follow-up Master’s study program is the completion of study in a Bachelor’s study program (240 ECTS credits). Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Master’s study program with a Bachelor’s degree from a different study group will have to take the difference exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Doctoral study program

Final Examination / ECTS: Final state examination / 30 ECTS credits

ECTS Departmental Coordinator:

Name: Vera Spasenović, Associate Professor

Email: vspaseno@f.bg.ac.rs

Phone: 381 11 3206-164

Process of Studying: A student that graduates with a Master degree in Pedagogy will accomplish and perform the following:

- Will acquire knowledge about modern, worldwide pedagogic ideas, theories and concepts
- Will recognize to apply acquired knowledge in professional pedagogic work and present constructive solutions for improving existing educational systems and programs
- Will become competent to individually and independently identify various pedagogic issues and conduct research projects

Educational and Professional Goals: A Master’s study program in Pedagogy is oriented towards acquiring knowledge and skills in the area of Pedagogy, obtaining abilities necessary for satisfying professional responsibilities and conducting individual and independent work within educational systems and programs as well as towards continuing education.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each study course corresponds to 6 ECTS credits, while research study project corresponds to 10 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

PEDAGOGY – DOCTORAL DEGREE

Faculty: Faculty of Philosophy

Study Program: Pedagogy

Study Field: Pedagogy

Type of Study: Doctoral

Form of Study: Full time

Standard Length of Study: 3 years / 6 semesters

Number of ECTS credits allocated: 180 ECTS credits

Qualification Awarded: Doctor of Pedagogy (Ph.D.)

Admission Requirements: An entrance conditions for enrollment in a follow-up Doctoral study program are the completion of study in a Master's study program (300 ECTS credits), the average grade of 8.00 during Bachelor and Master's study programs, or at least five published research studies in magazines of national and international recognition. The knowledge of at least one foreign language is mandatory as well. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Doctoral study program with a Master's degree from a different study group will have to take the differential exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: The doctoral degree is the highest level of Serbian education system.

Final Examination / ECTS: State final examination – Doctoral Dissertation / 100 ECTS credits

ECTS Departmental Coordinator:

Name: Vera Spasenović, Associate Professor

Email: vspaseno@f.bg.ac.rs

Phone: 381 11 3206-164

Educational and Professional Goals: The main goal of the Doctoral study program in Pedagogy is to enable graduate students for a professional, scientific and research work at the highest educational level in the areas of Pedagogy. The focus is also on following modern trends in Pedagogy worldwide and on realizing and understanding changes of both theoretical and practical sections of educational programs, as well as on evaluating the effects of those changes and their significance for further development of Pedagogy.

A graduate student with a Doctoral degree in Pedagogy will be qualified and will have adequate competence to perform the following:

- To individually resolve and explain practical and theoretical problems concerning general matters concerning Pedagogy while developing and practicing educational systems and methods

- To individually identify research questions and topics, define research problems, and plan and realize research studies using appropriate qualitative and quantitative methods and techniques
- To initiate and engage in accomplishing domestic and international research projects concerning educational issues and matters
- To critically analyze, evaluate and apply innovative pedagogic ideas and findings
- To understand and practice the principles of working ethics and act in accordance with rules of Law
- To communicate on professional level while presenting research results
- To present achieved research results at domestic and international conventions, to publish the same in periodicals and magazines, to promote knowledge and ideas in academic circles and in public significant for social and cultural growth
- To work as a research team member
- To accomplish original research works using results to expand the knowledge in Pedagogy
- To recognize and understand in details theoretical and methodological issues concerning Pedagogy
- To comprehend and apply various methodological and epistemological methods, and evaluate their efficiency in researching educational systems and programs
- To realize and understand educational issues within social, cultural and institutional context
- To comprehend theoretical and methodological basis of developing educational programs
- To explore educational phenomena and develop educational approaches for integrating various discoveries within the areas of Pedagogy, and to critically analyze different pedagogic theories and movements
- To relate and connect knowledge gained from studying Pedagogy with knowledge from other disciplines using it for solving existing educational issues
- To understand and productively use modern findings of Pedagogy
- To utilize research projects' results for improving and promoting Pedagogy

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each elective and compulsory study course corresponds to 10 ECTS credits. The instructions are conducted through: lectures, seminars, discussions, group work, mentoring work, consultations, and research study projects. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

DEPARTMENT OF ANDRAGOGY

ANDRAGOGY – BACHELOR'S DEGREE

Faculty: Faculty of Philosophy

Study Program: Andragogy

Study Field: Andragogy

Type of Study: Bachelor

Form of Study: Full time

Standard Length of Study: 4 years / 8 semesters

Number of ECTS credits allocated: 240 ECTS credits

Qualification Awarded: Bachelor of Andragogy (B.A.)

Admission Requirements: An entrance condition for enrollment in a Bachelor's study program is to have graduated full high school, approved entrance examination scores, and acceptance to study program. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Master study program

Final Examination / ECTS: No final state examination required

ECTS Departmental Coordinator:

Name: Tamara Nikolić, Assistant Professor

Email: tamara.nikolic@f.bg.ac.rs

Phone: 381 11 3206-165

Process of Studying: A student that graduates with a Bachelor degree in Andragogy will accomplish and perform the following:

- Will understand theoretical basis of Andragogy and its methodological and epistemological status
- Will comprehend different concepts in Andragogy and to understand European systems of adult education
- Will realize and make a distinction between different theories and concepts relevant for understanding the development of the adults and the way the function in diverse environments and within specific contexts, such as: family, work, school, free time, etc.
- Will understand the factors that shape global, national and regional politics of educating adults, and will participate in creating strategic and operational solutions on national and local level
- Will explore the practice of educating adults, and will present research study findings in appropriate manners

Educational and Professional Goals: The main goal of a Bachelor's study program in Andragogy is to equip each student with an ability to apply gained knowledge towards improving both Andragogy as a science and Andragogy as a manner of educating adults.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. The study courses correspond to 3 – 8 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

ANDRAGOGY – MASTER’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Andragogy

Study Field: Andragogy

Type of Study: Master

Form of Study: Full time

Standard Length of Study: 1 year / 2 semesters

Number of ECTS credits allocated: 60 ECTS credits

Qualification Awarded: Master of Andragogy (M.A.)

Admission Requirements: An entrance condition for enrollment in a follow-up Master’s study program is the completion of study in a Bachelor’s study program (240 ECTS credits). Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Master’s study program with a Bachelor’s degree from a different study group will have to take the difference exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Doctoral study program

Final Examination / ECTS: Final state examination / 20 ECTS credits

ECTS Departmental Coordinator:

Name: Tamara Nikolić, Assistant Professor

Email: tamara.nikolic@f.bg.ac.rs

Phone: 381 11 3206-165

Process of Studying: A student that graduates with a Master degree in Andragogy will accomplish and perform the following:

- Will understand the basic theoretical and methodological matters concerning Andragogy and other related disciplines that study the education and the development of the adults
- Will acquire knowledge about different methodological and epistemological research approaches and paradigms, and will understand the implications of their usage while studying specific problems concerning process of educating and development of the adults
- Will create and accomplish different types of applied research projects in educating adults
- Will identify practical problems concerning Andragogy, attain and accomplish research projects concerning those issues and suggest practical solutions

Educational and Professional Goals: A Master’s study program in Andragogy is oriented towards acquiring general and specific knowledge and skills in the area of Andragogy, obtaining abilities necessary for satisfying professional responsibilities and conducting individual and independent work within educational systems and programs concerning education of adults.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each study course, both compulsory and elective, corresponds to 6 ECTS credits, while research study project corresponds to 10 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

ANDRAGOGY – DOCTORAL DEGREE

Faculty: Faculty of Philosophy

Study Program: Andragogy

Study Field: Andragogy

Type of Study: Doctoral

Form of Study: Full time

Standard Length of Study: 3 years / 6 semesters

Number of ECTS credits allocated: 180 ECTS credits

Qualification Awarded: Doctor of Andragogy (Ph. D.)

Admission Requirements: An entrance conditions for enrollment in a follow-up Doctoral study program are the completion of study in a Master's study program (300 ECTS credits), the average grade of 8.00 during Bachelor and Master's study programs, or at least five published research studies in magazines of national and international recognition. The knowledge of at least one foreign language is mandatory as well. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Doctoral study program with a Master's degree from a different study group will have to take the differential exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: The doctoral degree is the highest level of Serbian education system.

Final Examination / ECTS: State final examination – Doctoral Dissertation / 100 ECTS credits

ECTS Departmental Coordinator: Name:

Name: Tamara Nikolić, Assistant Professor

Email: tamara.nikolic@f.bg.ac.rs

Phone: 381 11 3206-165

Educational and Professional Goals: A Doctoral study program in Andragogy is oriented towards emerging and improving knowledge and skills for theoretically-analytical, critically-investigative and practically-innovative work in all academic and professional areas in Andragogy and the education of the adults.

A graduate student with a Doctoral degree in Andragogy will be qualified and will have adequate competence to perform the following:

- To critically think and analyze basic issues of theoretical and practical sections of a lifelong educational process
- To evaluate and examine exploring and practical values of different theories, concepts and strategies within adult education

- To examine and evaluate possibilities of applying different methodological and epistemological approaches in researching basic issues of adult education
- To combine interdisciplinary and integrative approaches while examining basic issues within adult educational process
- To create and accomplish various fundamental research study works concerning adult education, and to present the results at domestic and international conventions
- To understand co-independence among global and national issues and perspectives concerning adult education
- To utilize research results for shaping systematical solutions, overcoming concrete problems and improving practice of adult education
- To introduce research results and global tendencies of existing issues and practical solutions to intellectual community
- To recognize the adult education as a process of educating adults as independent and social phenomena, and to comprehend the philosophical, historically-comparative, socio-economical, psychological, and organizationally-didactic dimensions of Andragogy
- To critically evaluate the possibility of potential applying of different models and forms of preventive education and intervention within complex social contexts and domains, such as: family, work, social environment, free time, etc.
- To understand personal professional and ethic responsibilities necessary for improving the adult education in both theory and practice

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each elective and compulsory study course corresponds to 10 ECTS credits, and the thesis and project topic selections correspond to 10 ECTS credits each. The research study work corresponds to 40 ECTS credits and the final thesis analysis corresponds to 60 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

DEPARTMENT OF HISTORY

HISTORY – BACHELOR'S DEGREE

Faculty: Faculty of Philosophy

Study Program: History

Study Field: History

Type of Study: Full time

Form of Study: Bachelor

Standard Length of Study: 4 years / 8 semesters

Number of ECTS credits allocated: 240 ECTS credits

Qualification Awarded: Bachelor of History (B.A.)

Admission Requirements: An entrance condition for enrollment in a Bachelor's study program is to have graduated full high school, approved entrance examination scores, and acceptance to study program. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Master study program

Final Examination / ECTS: Final state examination / 8 ECTS credits

ECTS Departmental Coordinator:

Name: Jelena Mrgić, Associate Professor

Email: jmrgic@f.bg.ac.rs

Phone: 381 11 3206-289

Process of Studying: A student that graduates with a Bachelor degree in History will accomplish and perform the following:

- Will acquire a system of knowledge about History as special scientific discipline; will acquire a system of knowledge about history of human society from ancient to modern times, including history of Serbian nation
- Will obtain capability of understanding and critical analysis of historical process and progression, occurrences and happenings during the development of human society throughout different epochs and areas, as well as the ability of comprehending significant and current political, social and cultural matters
- Will acquire the ability of applying gained knowledge in all potential professional fields concerning History, as well as developing and advancing personal professional skills within the process of continued education

Educational and Professional Goals: A Bachelor's study program in History is oriented towards acquiring knowledge about the history of human society and about history as a scientific discipline, as well as towards developing abilities of understanding and critical thinking of

historical process, occurrences and events scientifically based on historical perspective. The intention of the study program is to enable a student for further advancement of acquired knowledge and skills, and for applying the same in all professional activities, as well as towards forming an opinion about past and present political, social and cultural events and matters.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. The study courses correspond to 3 – 11 ECTS credits forming units that correspond to 30 ECTS credits each. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

HISTORY – MASTER’S DEGREE

Faculty: Faculty of Philosophy

Study Program: History

Study Field: History

Type of Study: Master

Form of Study: Full time

Standard Length of Study: 1 year / 2 semesters

Number of ECTS credits allocated: 60 ECTS credits

Qualification Awarded: Master of History (M.A.)

Admission Requirements: An entrance condition for enrollment in a follow-up Master’s study program is the completion of study in a Bachelor’s study program (240 ECTS credits). Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Master’s study program with a Bachelor’s degree from a different study group will have to take the difference exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Doctoral study program

Final Examination / ECTS: Final state examination / 20 ECTS credits

ECTS Departmental Coordinator:

Name: Jelena Mrgić, Associate Professor

Email: jmrgic@f.bg.ac.rs

Phone: 381 11 3206-289

Process of Studying: A student that graduates with a Master degree in History will accomplish and perform the following:

- Will acquire scientifically and methodologically specific knowledge in particular History and History related disciplines necessary for enabling student for conducting independent research work
- Will obtain abilities for applying the acquired scientifically and methodologically specific knowledge and skills in creating and accomplishing the research work, and in satisfying professional responsibilities of a Master of History in concrete educational and cultural institutions
- Will acquire ability of presenting the results of the research work in oral form at the conventions, and in written form publishing them in scientific magazines and periodicals

Educational and Professional Goals: A Master’s study program in History is oriented towards scientifically and methodologically specific knowledge and skills in particular History and History related disciplines. The intention of the study program is to have a graduate student equipped with abilities for applying acquired knowledge and skills in performing professional responsibilities

within educational and cultural institutions and programs, in conducting independent research study works, as well as in presenting the accomplishments in both oral and written form.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each study course, either elective or compulsory, corresponds to 6 ECTS credits. The research study work in the second semester corresponds to 10 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

HISTORY – DOCTORAL DEGREE

Faculty: Faculty of Philosophy

Study Program: History

Study Field: History

Type of Study: Doctoral

Form of Study: Full time

Standard Length of Study: 3 years / 6 semesters

Number of ECTS credits allocated: 180 ECTS credits

Qualification Awarded: Doctor of History (Ph.D.)

Admission Requirements: An entrance conditions for enrolment in a follow-up Doctoral study program are the completion of study in a Master's study program (300 ECTS credits), the average grade of 8.00 during Bachelor and Master's study programs, or at least five published research studies in magazines of national and international recognition. The knowledge of at least one foreign language is mandatory as well. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Doctoral study program with a Master's degree from a different study group will have to take the differential exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: The doctoral degree is the highest level of Serbian education system.

Final Examination / ECTS: State final examination – Doctoral Dissertation / 60 ECTS credits

ECTS Departmental Coordinator:

Name: Jelena Mrgić, Associate Professor

Email: jmrgic@f.bg.ac.rs

Phone: 381 11 3206-289

Educational and Professional Goals: A Doctoral study program in History is oriented towards acquiring notable knowledge in particular History and History related disciplines specifically concerning the theoretical section of History, the knowledge necessary for following modern trends and developments within this social science. A student that graduates with a Doctoral degree in History will be equipped with abilities of applying acquired scientifically and methodologically specific knowledge and skills in satisfying professional responsibilities through independent research work in History and through work within institutions of higher education.

A graduate student with a Doctoral degree in History will become capable of independently conducting research study works concerning complex historical events and occurrences and social conditions they took place in, as well as capable of correctly understanding and precisely and

scientifically evaluating the same using modern methodological approaches and postulates. The graduate student will become competent to independently perform research analysis, make appropriate conclusions and judgments, and present and publish the results within domestic and international scientific History related market. The Doctor of History will be enabled to independently assist in conducting domestic and international research projects offering proficient support while collaborating with History and History related experts, and to significantly provide towards the latest discoveries and findings in History, as well as towards greater understanding of different historical epochs, countries, societies, and cultures. The Doctor of History will become proficient in critically and independently analyzing and evaluating various historical phenomena, noticing possible methodological or professional errors and omissions, while asking numerous questions towards providing apposite scientifically based answers.

After accomplishing the Doctoral study program in History, the graduate student will become acquired with complete and extensive knowledge in particular History and History related disciplines, and the knowledge that will enable the graduate student to actively participate and contribute to: various scientific research projects, independent evaluation and solving scientifically-historical issues and concerns, independent formulation of research topics, and analysis of the same by means of the latest methodological postulates and tendencies utilized in History. The Doctor of History will be utterly accomplished to comprehend and apply the most complex methodological and theoretical novices in specific areas of History, while observing and perceiving the general and detailed development of the science, especially the sections concerning the increase of specific competence in particular History disciplines and topics. The graduate student will be competent to actively provide in most recent discoveries and findings pertaining to specific areas of interest, to independently utilize and share acquired knowledge and attained principles of scientific research work, and to make use of them and consume them within the wide spectrum of professional, educational and cultural activities and responsibilities.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each elective and compulsory study course corresponds to 10 ECTS credits, and the thesis and project topic selections correspond to 15 ECTS credits each. The research study work corresponds to 30 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

DEPARTMENT OF HISTORY OF ART

HISTORY OF ART – BACHELOR'S DEGREE

Faculty: Faculty of Philosophy

Study Program: History of Art

Study Field: History of Art

Type of Study: Bachelor

Form of Study: Full time

Standard Length of Study: 4 years / 8 semesters

Number of ECTS credits allocated: 240 ECTS credits

Qualification Awarded: Bachelor of History of Art (B. A.)

Admission Requirements: An entrance condition for enrollment in a Bachelor's study program is to have graduated full high school, approved entrance examination scores, and acceptance to study program. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Master's study program

Final Examination / ECTS: Final state examination / 6 ECTS credits

ECTS Departmental Coordinator:

Name: Branka Vranešević Assistant Professor

Email: bvrnese@f.bg.ac.rs

Phone: 381 11 3206-223

Process of Studying: After accomplishing a Bachelor's study program in History of Art, a student will be proficient in independently applying the gained knowledge while interpreting and analyzing numerous pieces of art as well as the artistic and architectural occurrences, events and trends. The Bachelor of History of Art will be acquired with knowledge to utilize it while working within museums and programs for national heritage protection, and to apply gained pedagogic and methodological expertise in performing professional activities at the educational institutions, such as elementary schools, middle schools and high schools.

Educational and Professional Goals: A Bachelor's study program in History of Art is oriented towards acquiring knowledge and developing skills and proficiency necessary for a professional work of a Bachelor of History of Art within different cultural institutions, institutions for national heritage and tradition protection, elementary and high school educational institutions, in administration, media and public relations, as well towards continuing education and professional upgrading and perfection.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. The study

courses correspond to 2 – 10 ECTS. The instructions are conducted through: lectures, seminars, and mandatory laboratory work. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

HISTORY OF ART – MASTER’S DEGREE

Faculty: Faculty of Philosophy

Study Program: History of Art

Study Field: History of Art

Type of Study: Master

Form of Study: Full time

Standard Length of Study: 1 year / 2 semesters

Number of ECTS credits allocated: 60 ECTS credits

Qualification Awarded: Master of History of Art (M.A.)

Admission Requirements: An entrance condition for enrollment in a follow-up Master’s study program is the completion of study in a Bachelor’s study program (240 ECTS credits). Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Master’s study program with a Bachelor’s degree from a different study group will have to take the difference exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Doctoral study program

Final Examination / ECTS: Final state examination / 20 ECTS credits

ECTS Departmental Coordinator:

Name: Branka Vranešević Assistant Professor

Email: bvrnese@f.bg.ac.rs

Phone: 381 11 3206-223

Process of Studying: A graduate student with a Master degree in History of Art will be capable of performing the following activities:

- Will acquire methods of scientific research work
- Will be introduced to and familiar with the latest literature pertaining to History of Art and related disciplines, including literature in foreign languages
- Will acquire superior intellectual and rhetorical proficiency
- Will develop independent critical thinking in personal interpretations

Educational and Professional Goals: The main goal of a Master’s study program in History of Art is to perfect and further the proficiency a graduate student has acquired during the undergraduate studies, while focusing on particular areas of specialization: a) Historical, theoretical and visual understanding of selected artistic or architectural course or phenomenon in History of Art in a

period from ancient to modern and contemporary times; b) Museums and national heritage protection programs; c) Methodology of history of Art as a science and humanistic discipline; d) To acquire a graduate student with expertise necessary to independently conduct research programs and interpret pieces of art, with extensive contextualization of particular disciplines, such as: Cultural History, Sociology, Anthropology, Archaeology, Pedagogy, Classics, etc.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each study course, either elective or compulsory, corresponds to 6 ECTS credits. The research study work in the second semester corresponds to 10 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

HISTORY OF ART – DOCTORAL DEGREE

Faculty: Faculty of Philosophy

Study Program: History of Art

Study Field: History of Art

Type of Study: Doctoral

Form of Study: Full time

Standard Length of Study: 3 years / 6 semesters

Number of ECTS credits allocated: 180 ECTS credits

Qualification Awarded: Doctor of History of Art (Ph.D.)

Admission Requirements: An entrance conditions for enrollment in a follow-up Doctoral study program are the completion of study in a Master's study program (300 ECTS credits), the average grade of 8.00 during Bachelor and Master's study programs, or at least five published research studies in magazines of national and international recognition. The knowledge of at least one foreign language is mandatory as well. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Doctoral study program with a Master's degree from a different study group will have to take the differential exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: The doctoral degree is the highest level of Serbian education system.

Final Examination / ECTS: State final examination – Doctoral Dissertation / 120 ECTS credits

ECTS Departmental Coordinator:

Name: Branka Vranešević Assistant Professor

Email: bvrane@f.bg.ac.rs

Phone: 381 11 3206-223

Educational and Professional Goals: The main goal of a Doctoral study program in History of Art is to perfect the previously acquired knowledge and skills in following areas:

- Historical, theoretical, thematic, challenging, conceptual and visual understanding of particular artistic course, individual artist or phenomena pertaining to History of Art and Architecture in a period from ancient to modern and contemporary times
- Understanding and critical evaluation of History of Art as a science, as well as practice of other related disciplines
- Theoretical and practical application of knowledge and expertise concerning work within museums and national heritage protection programs

- Methodology of History of Art as a science and humanistic discipline, with focus on contextual and interdisciplinary approach in studying particular topics, areas and contents of History of Art and Architecture
- Creative abilities and independency during performing intellectual and professional activities
- Research accountability, persistence and efficiency, inquisitiveness, intellectual flexibility, and professional and educational responsibilities at the highest level
- Organizing and conducting scientific research project independently
- Assisting in national and international scientific research projects
- Intellectual and professional expertise necessary for development, advancement and popularization of History of Art.

A graduate student with a Doctoral degree in history of Art will be qualified and competent to perform the following:

- To independently, theoretically and practically perform in the particular area of expertise, such as: History of Art, History of Architecture, Theory, Museums and National Heritage Protection Programs
- To apply cognitive, research and communicational skills, as well as the ability of autonomous intellectual and professional performance
- To conduct lectures at the institutions of higher educations
- To assist in conducting domestic and international scientific research projects
- To execute independently and artistically
- To respect principles of working ethics
- To communicate at the professional level while presenting results of scientific research projects at the conventions or publishing the same in scientific periodicals and magazines; to complete original scientific research projects, monographs or independent interpretations of a pieces of art
- To provide towards advancing History of Art as a science
- To execute comprehensive knowledge and meticulous understanding of History of Art a scientific discipline
- To be capable of solving existing problems utilizing scientific methods and techniques
- To execute interdisciplinary knowledge
- To follow latest worldwide trends and tendencies in History of Art
- To apply acquired knowledge and skills in particular area of expertise pertaining to History of Art
- To utilize contemporary technologies while implementing and sharing acquired knowledge in History of Art and related disciplines.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each elective and compulsory study course corresponds to 10 ECTS credits, and the thesis and project topic selections correspond to 15 ECTS credits each. The research study work corresponds to 45 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

DEPARTMENT OF ARCHAEOLOGY

ARCHAEOLOGY – BACHELOR’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Archaeology

Study Field: Archaeology

Type of Study: Bachelor

Form of Study: Full time

Standard Length of Study: 4 years / 8 semesters

Number of ECTS credits allocated: 240 ECTS credits

Qualification Awarded: Bachelor of Archaeology (B.A.)

Admission Requirements: An entrance condition for enrollment in a Bachelor’s study program is to have graduated full high school, approved entrance examination scores, and acceptance to study program. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Master’s study program

Final Examination / ECTS: No final state examination required

ECTS Departmental Coordinator:

Name: Boban Tripković, Assistant Professor

Email: btripkov@f.bg.ac.rs

Phone: 381 11 3206-237

Process of Studying: After accomplishing a Bachelor’s study program in Archaeology, a student will be proficient in performing following activities:

- Will acquire general knowledge about material culture of human societies in past, with particular focus on Central Balkan territory
- Will obtain practical knowledge and skills necessary for processing archaeological materials and documentation
- Will acquire knowledge and expertise essential in creating and accomplishing research study works, and in continuing education
- Will be equipped with ability to apply acquired knowledge and skills in different professional environments, such as: working in the museums, educational, caring and cultural institutions.

Educational and Professional Goals: The main goals of a Bachelor’s study program in Archaeology are as following:

- Offering a great chronological (from Early Prehistory to Middle Age) and geographical (Balkan, Europe, Mediterranean, Egypt, Near East) insight in archaeological research, as well at the fundamentals of particularly specialized archaeological disciplines, such as: Environmental Archaeology, Archaeozoologia, Physical Anthropology, etc.
- Presenting exhaustive knowledge in particular areas of Archaeology
- Proposing possibilities of multi and interdisciplinary collaboration
- Assuring knowledge and skills necessary for continuing and perfecting education, and performing and satisfying professional responsibilities.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. The study courses correspond to 3 – 11 ECTS. The instructions are conducted through: lectures, seminars, mandatory laboratory work, and independent study work. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

ARCHAEOLOGY – MASTER’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Archaeology

Study Field: Archaeology

Type of Study: Master

Form of Study: Full time

Standard Length of Study: 1 year / 2 semesters

Number of ECTS credits allocated: 60 ECTS credits

Qualification Awarded: Master of Archaeology (M.A.)

Admission Requirements: An entrance condition for enrollment in a follow-up Master’s study program is the completion of study in a Bachelor’s study program (240 ECTS credits). Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Master’s study program with a Bachelor’s degree from a different study group will have to take the difference exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Doctoral study program

Final Examination / ECTS: Final state examination – 20 ECTS credits

ECTS Departmental Coordinator: Name: Boban Tripković, Assistant Professor

Email: btripkov@f.bg.ac.rs

Phone: 381 11 3206-237

Process of Studying: A Master’s study program in Archaeology offers the following:

- Meticulous and systematic knowledge in particular archeological fields of study
- Foundation for continuing education
- Competence for critical analysis of cultural occurrences and courses of past times
- Proficiency in perception and critical analysis of cultural occurrences and courses of contemporary times
- Expertise in interdisciplinary involving various humanistic and Archeology related disciplines
- Application of acquired knowledge in diverse professional environments, such as: working in museums, and caring, educational and cultural institutions.

Educational and Professional Goals: A Master’s study program in Archaeology is oriented towards developing general and specific knowledge and skills necessary for assisting and conducting research study works. The main goals of the Master’s study program in Archaeology are the following:

- Acquiring thorough knowledge of fundamental theoretical and methodological findings in Archaeology and other related disciplines
- Acquiring specific knowledge and skills in specialized archaeological disciplines
- Developing professional approach to research work
- Applying acquired knowledge and skills in practice
- Developing creative, professional and academic abilities
- Preparing for scientific research study works, professional perfecting, and continuing education.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each study course, either elective or compulsory, corresponds to 6 ECTS credits. The research study work in the second semester corresponds to 10 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

ARCHAEOLOGY – DOCTORAL DEGREE

Faculty: Faculty of Philosophy

Study Program: Archaeology

Study Field: Archaeology

Type of Study: Doctoral

Form of Study: Full time

Standard Length of Study: 3 years / 6 semesters

Number of ECTS credits allocated: 180 ECTS credits

Qualification Awarded: Doctor of Archaeology (Ph.D.)

Admission Requirements: An entrance conditions for enrollment in a follow-up Doctoral study program are the completion of study in a Master's study program (300 ECTS credits), the average grade of 8.00 during Bachelor and Master's study programs, or at least five published research studies in magazines of national and international recognition. The knowledge of at least one foreign language is mandatory as well. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Doctoral study program with a Master's degree from a different study group will have to take the differential exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: The doctoral degree is the highest level of Serbian education system.

Final Examination / ECTS: State final examination – Doctoral Dissertation / 120 ECTS credits

ECTS Departmental Coordinator: Name: Boban Tripković, Assistant Professor

Email: btripkov@f.bg.ac.rs

Phone: 381 11 3206-237

Educational and Professional Goals: A Doctoral study program in Archaeology has been designed based on social, professional and practical needs of a society. Specifically pertaining to contemporary research tendencies in Archaeology, the intentions of the Doctoral study program are as following:

- Developing creative abilities and analytical techniques necessary for researching past times
- Developing academic and professional expertise and proficiency
- Developing consciousness about continuous professional expansion and improvement as well as intensifying and expanding scientific flexibility and research inquisitiveness
- Escalating the assistance in conducting domestic and international scientific research projects
- Emerging abilities for conducting scientific research projects
- Employment of interdisciplinary methods in examining and analyzing past times

The Doctoral study program in Archaeology will acquire the graduate student with knowledge, proficiency, expertise and skills to perform the following:

- To independently resolve practical and theoretical matters and issues in particular areas of Archaeology, and to accomplish developmental and scientific research work
- To assist in conducting international scientific research projects
- To develop innovative and original archaeological research methods
- To think critically, and to execute creatively and independently
- To respect the principles of working ethics
- To present scientific research projects' results in public, presenting them at the conventions and public lectures, and publishing them in scientific periodicals and magazines
- To increase and intensify consciousness about the significance of archaeological scientific research projects and national heritage protection programs
- To acquire exhaustive knowledge in particular areas of archaeological research
- To attain meticulous expertise in comprehending and utilizing theoretical and methodological approaches in archaeological research
- To promote abilities of multi and interdisciplinary approaches in solving scientific research issues and matters
- To support creative engagement in following modern trends and tendencies in Archaeology
- To independently create, plan and conduct complex scientific research projects in Archaeology.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each elective and compulsory study course corresponds to 10 ECTS credits, and the thesis and project topic selections correspond to 15 ECTS credits each. The research study work corresponds to 45 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

DEPARTMENT OF ETHNOLOGY AND ANTHROPOLOGY

ETHNOLOGY AND ANTHROPOLOGY – BACHELOR'S DEGREE

Faculty: Faculty of Philosophy

Study Program: Ethnology and Anthropology

Study Field: Ethnology and Anthropology

Type of Study: Bachelor

Form of Study: Full time

Standard Length of Study: 4 years / 8 semesters

Number of ECTS credits allocated: 240 ECTS credits

Qualification Awarded: Bachelor of Ethnology and Anthropology (B.A.)

Admission Requirements: An entrance condition for enrollment in a Bachelor's study program is to have graduated full high school, approved entrance examination scores, and acceptance to study program. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Master study program

Final Examination / ECTS: Final state examination / 10 ECTS credits

ECTS Departmental Coordinator:

Name: Slobodan Naumović, Associate Professor

Email: snaumovi@f.bg.ac.rs

Phone: 381 11 3206-277

Process of Studying: A student that graduates with a Bachelor's degree in Ethnology and Anthropology will be equipped for performing the following:

- Organize, design and conduct scientific research projects within cultural, public, and religious domains, as well as in various social and institutions and groups
- Perform mediation in situations of ethnic, cultural, religious, racial or comparable conflicts frequent in multicultural societies
- Identify, document, classify, archive, interpret and evaluate elements of cultural heritage
- Actively apply ethnological and anthropological knowledge and findings in cultural spheres of media, sports, fashion and tourism
- Analyze, implement and evaluate projects in social and cultural-political study fields
- Conduct scientific and applied projects supported and financed by numerous government and non-for-profit organizations
- Participate and contribute in process of education in preschool institutions, as well as in elementary, middle and high school institutions, and in process of permanent education
- Competently and proficiently partake and contribute in conducting research projects, creating projects and administrating cultural institutions, such as: museums, galleries, libraries, archives, media archives, cultural centers, etc.

- Participate and contribute in developmental projects based on analytic, predictive and evaluative level
- Continue education through a Master's study program or Specialization program within socio-humanistic study fields.

Educational and Professional Goals: In past two decades of the proficient profiling of this occupation, a Bachelor's study program in Ethnology and Anthropology has been oriented towards developing professional competencies of a socially recognized and prominent career of a Bachelor of Ethnology and Anthropology, while creating an occupation essential for conducting research study works and projects, planning, governing and evaluating some of the largest socio-cultural transformations within the history of the country that are current progress.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. The study courses correspond to 4 – 7 ECTS. The instructions are conducted through: lectures, seminars, mandatory laboratory work, discussions, field work, etc. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

ETHNOLOGY AND ANTHROPOLOGY – MASTER’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Ethnology and Anthropology

Study Field: Ethnology and Anthropology

Type of Study: Master

Form of Study: Full time

Standard Length of Study: 1 year / 2 semesters

Number of ECTS credits allocated: 60 ECTS credits

Qualification Awarded: Master of Ethnology and Anthropology (M.A.)

Admission Requirements: An entrance condition for enrollment in a follow-up Master’s study program is the completion of study in a Bachelor’s study program (240 ECTS credits). Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Master’s study program with a Bachelor’s degree from a different study group will have to take the difference exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Doctoral study program

Final Examination / ECTS: Final state examination / 16 ECTS credits

ECTS Departmental Coordinator:

Name: Slobodan Naumović, Associate Professor

Email: snaumovi@f.bg.ac.rs

Phone: 381 11 3206-277

Process of Studying: A student that graduates with a Master’s degree in Ethnology and Anthropology will be equipped for performing the following:

- Organize, design and conduct scientific research projects within cultural, public, and religious domains, as well as in various social and institutions and groups
- Perform mediation in situations of ethnic, cultural, religious, racial or comparable conflicts frequent in multicultural societies

- Competently and proficiently partake and contribute in conducting research projects, creating projects and administrating cultural institutions, such as: museums, galleries, libraries, archives, media archives, cultural centers, etc.
- Participate and contribute in developmental projects based on analytic, predictive and evaluative level

Educational and Professional Goals: The main goal of a Master's study program in Ethnology and Anthropology is to enable graduate students to integrate in continuously changeable work market conditions, specifically orienting the Master's study program in Ethnology and Anthropology towards interpretative and applied approaches of scientific research study works, whether these students are continuing education after accomplishing undergraduate studies in Ethnology and Anthropology or they are using the Master's study program in Ethnology and Anthropology to change their vocational discipline or build their competencies to become more diverse and remarkable.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each study course, either elective or compulsory, corresponds to 6 ECTS credits. The research study work in the second semester corresponds to 8 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

ETHNOLOGY AND ANTHROPOLOGY – DOCTORAL DEGREE

Faculty: Faculty of Philosophy

Study Program: Ethnology and Anthropology

Study Field: Ethnology and Anthropology

Type of Study: Doctoral

Form of Study: Full time

Standard Length of Study: 3 years / 6 semesters

Number of ECTS credits allocated: 180 ECTS credits

Qualification Awarded: Doctor of Ethnology and Anthropology (Ph.D.)

Admission Requirements: An entrance conditions for enrollment in a follow-up Doctoral study program are the completion of study in a Master's study program (300 ECTS credits), the average grade of 8.00 during Bachelor and Master's study programs, or at least five published research studies in magazines of national and international recognition. The knowledge of at least one foreign language is mandatory as well. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Doctoral study program with a Master's degree from a different study group will have to take the differential exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: The doctoral degree is the highest level of Serbian education system.

Final Examination / ECTS: State final examination – Doctoral Dissertation / 120 ECTS credits

ECTS Departmental Coordinator:

Name: Slobodan Naumović, Associate Professor

Email: snaumovi@f.bg.ac.rs

Phone: 381 11 3206-277

Process of Studying: Overall basic characteristics of a qualified and knowledgeable Doctor of Ethnology and Anthropology are creative thinking, ability of challenging the obvious, capability of triangulation and bricolage methods, research techniques, theoretical approaches and opinions, and ideological scientific contexts. In accordance with these goals, the Doctoral study program in Ethnology and Anthropology has been created and designed to simultaneously acquire modern and contemporary knowledge concerning theoretical and methodological disciplines within Ethnology and Anthropology and related socio-humanistic disciplines, and to continuously instruct and prepare graduate student for independent and team scientific research study work. The main goal of the Doctoral study program in Ethnology and Anthropology is to acquire graduate students with knowledge to actively apply obtained expertise from the academic habitat onto surrounding socio-cultural phenomena, including but not excluding occurrences such as: research design, conducting research, describing and analyzing research results, dissemination of the research

results, active update on the latest ethnological and anthropological trends and tendencies, translation of discipline specific knowledge into explicable administrative language, and language understood by general population and related disciplines.

Educational and Professional Goals: A graduate student with a Doctoral degree in Ethnology and Anthropology will be competent for performing the following activities:

- Independently or with a team create scientific research projects
- Independently or with a team accomplish scientific research projects
- Independently describe, analyze, publish and promote research results
- Independently or with a team actively apply acquired knowledge
- Independently or with a team amend the research results and the dissemination language of the results to different sub-disciplines and general population
- Independently perform controlling or recurring research work concerning relevant research phenomena
- Participate in interdisciplinary projects
- Evaluate scientific research results of different authors and project instigators
- Evaluate scientific, artistic, administrative and other research projects that are maneuvered by socio-cultural analysis
- Consult clients and research associates within the wide spectrum of activities. Ranging from administrative to commercial
- Conduct lectures and instructions within the academic or professional context of the specialized discipline or sub-discipline in Ethnology and Anthropology

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Elective and compulsory study courses corresponds from 5 to 10 ECTS credits, and the thesis and project topic selections correspond to 15 ECTS credits each. The research study work corresponds to 47 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

DEPARTMENT OF CLASSICAL LANGUAGES

CLASSICAL LANGUAGES – BACHELOR’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Classical Languages / Classics

Study Field: Classical Languages / Classics

Type of Study: Bachelor

Form of Study: Full time

Standard Length of Study: 4 years / 8 semesters

Number of ECTS credits allocated: 240 ECTS credits

Qualification Awarded: Bachelor of Classical Languages (B.A.)

Admission Requirements: An entrance condition for enrollment in a Bachelor’s study program is to have graduated full high school, approved entrance examination scores, and acceptance to study program. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Master study program

Final Examination / ECTS: Final state examination / 5 ECTS credits

ECTS Departmental Coordinator:

Name: Ana Petković, Assistant Professor

Email: anpetkov@f.bg.ac.rs

Phone: 381 11 2639-628

Process of Studying: A Bachelor’s study program in Classical Languages is designed to acquire students with knowledge of classical languages in order to utilize that knowledge in understanding and translating Latin or Ancient Greek texts, in recognizing essential societal characteristics of ancient civilizations and culture, and to share acquired knowledge with future generations, primarily concerning the profession of a Latin Language or Ancient Greek Language professor in high schools or other educational institutions.

Educational and Professional Goals: The main goal of a Bachelor’s study program in Classical Languages is acquiring knowledge about ancient times, primarily concerning Latin Language and Ancient Greek Language, understanding all aspects of ancient man lifestyle and ancient culture, and recognizing traces of ancient times in modern and contemporary world.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. The study courses correspond to 4 – 14 ECTS. The instructions are conducted through: lectures, consultations, and continuous oral and written testing. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

CLASSICAL LANGUAGES – MASTER’S DEGREE

Faculty: Faculty of Philosophy

Study Program: Classical Languages / Classics

Study Field: Classical Languages / Classics

Type of Study: Master

Form of Study: Full time

Standard Length of Study: 1 year / 2 semesters

Number of ECTS credits allocated: 60 ECTS credits

Qualification Awarded: Master of Classical Languages (M.A.)

Admission Requirements: An entrance condition for enrollment in a follow-up Master’s study program is the completion of study in a Bachelor’s study program (240 ECTS credits). Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Master’s study program with a Bachelor’s degree from a different study group will have to take the difference exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: Doctoral study program

Final Examination / ECTS: Final state examination / 20 ECTS credits

ECTS Departmental Coordinator:

Name: Ana Petković, Assistant Professor

Email: anpetkov@f.bg.ac.rs

Phone: 381 11 2639-628

Process of Studying: A Master’s study program in Classical Languages is designed to, during the specialization process, acquire students with knowledge of classical languages in order of utilizing acquired knowledge in recognizing related scientific issues, understanding scientific literature, approaching the literature critically, and undoubtedly presenting their achievements through principles and working ethics within scientific research work.

Educational and Professional Goals: The main goal of a Master’s study program in Classical Languages is to orient and qualify graduate students for practicing one out of many areas of Classical Philology, such as: Linguistics, Literature, or studying broader aspects of ancient civilization.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each study course, either elective or compulsory, corresponds to 6 ECTS credits. The research study work in the second semester corresponds to 10 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.

CLASSICS – DOCTORAL DEGREE

Faculty: Faculty of Philosophy

Study Program: Classical Languages / Classics

Study Field: Classical Languages / Classics

Type of Study: Doctoral

Form of Study: Full time

Standard Length of Study: 3 years / 6 semesters

Number of ECTS credits allocated: 180 ECTS credits

Qualification Awarded: Doctor of Classical Languages (Ph.D.)

Admission Requirements: An entrance conditions for enrollment in a follow-up Doctoral study program are the completion of study in a Master's study program (300 ECTS credits), the average grade of 8.00 during Bachelor and Master's study programs, or at least five published research studies in magazines of national and international recognition. The knowledge of at least one foreign language is mandatory as well. Rules for entrance examinations and admission are set in connection with the Faculty of Philosophy Statute. A student applying for a Doctoral study program with a Master's degree from a different study group will have to take the differential exam if necessary.

Transfer Regulations: Rules for transferring are set in connection with the Faculty of Philosophy Statute. It is mandatory for a student to have the sufficient number of ECTS credits within the adequate study group allowing a student to transfer or take the differential exam.

Access to Further Studies: The doctoral degree is the highest level of Serbian education system.

Final Examination / ECTS: State final examination – Doctoral Dissertation / 60 ECTS credits

ECTS Departmental Coordinator:

Name: Ana Petković, Assistant Professor

Email: anpetkov@f.bg.ac.rs

Phone: 381 11 2639-628

Educational and Professional Goals: The main goal of a Doctoral study program in Classical Languages is to produce experts that are specialized in particular disciplines of the study, creative in approaching and analyzing selected doctoral dissertation topics, well informed and educated on the latest trends and tendencies within Classical Languages studies, and capable of independently providing towards the development of Classical Languages.

Upon the graduation from a Doctoral study program in Classical Languages, a graduate student has specialized in one of the particular areas of Classical Languages, and in accordance with this, a graduate student with a Doctoral degree in Classical Languages is qualified for conducting scientific research study work, primarily at the universities and within institutions of higher education, within research institutes, and other educational institutions involved in research work.

Concerning the experience and meticulous knowledge of the profession, a graduate student with a Doctoral degree in Classical Languages is competent to translate and commentate, and publicly present ancient texts. A Doctor of Classical Languages, as a Professor of Classical Languages, is also expected to share the acquired knowledge and research experience with younger and future generations. Finally, the diverse nature of this discipline allows involvement with and contribution to interdisciplinary projects, and participation in working within educational institutions with reference to languages and culture of Ancient Times and Middle Century, such as: museums, archives, libraries, publishing centers, etc.

Course Selection / ECTS: The credit system at the Faculty of Philosophy conforms to the European Credit Transfer System (ECTS). One academic year corresponds to 60 ECTS credits. Each elective and compulsory study courses correspond to 10 ECTS credits, and the thesis topic selection corresponds to 15 ECTS credits each. The research study work corresponds to 45 ECTS credits. It is the credit accumulation system and corresponding grades of credits are allocated to subjects that form a part of the study program.
